Add map to 3DRerun

1. Choose your map calibration method: Map with route

2. Upload map

Map with route

Map with route **exported from QuickRoute as JPG-file**. Note! The map must be exported as a jpg-file from QuickRoute version 2.3 or newer in order to contain the GPS route and location information!

Add orienteering map to 3DRerun
Upload map from local computer

Parcourir... | Aucun fichier sélectionné. | Upload

Note! You are responsible for having the appropriate rights to upload maps to 3DRerun. Maps which are uploaded will be included in omaps.worldofo.com if found appropriate. Maps which are uploaded from a web location will not be stored locally at the 3DRerun server, but will be accessed from the web location. Note that uploaded maps may be deleted in the future if they are not found appropriate. Maximum filesize is 2 MB.

Export de carte QuickRoute avec trace GPS. Mettre a 0 la trace GPS (invisible). Cette action géoréférence la carte.

Add GPS-routes to 3DRerun

Use the form below to add one or more GPX-files. Note! This does NOT seem to work in Internet Explorer. Please use Google Chrome or Firefox if you have problems!

Tip! You can export a route as GPX-file from QuickRoute under the File menu or from Garmin Connect/Garmin Trainingcenter.

Parcourir... matraceGPS.gpx

Runner name:	DUPONT Thé
Competition name:	COURSE A LA SAUCISSE
Course: (e.g. H21, D21E, Long etc.)	H21 Elitres

Upload GPX file

Note! Import may be problematic for large files (more than 1 Mb) and some types of GPX-files. You should upload the map before you upload GPX-files if you want to add the map using this form.

Perform GPS-analysis

Choose which maps/routes you want to open in a GPS-analysis by ticking the boxes below. You can perform the analysis either in 2DRerun or 3DRerun. 2DRerun gives you the most advanced analysis possibilities and is recommended in most cases - but you need a map to perform the analysis. 3DRerun gives you a 'cooler' 3D view but with less possibilities - it does also work without map though.

Open selected maps/routes in 2DRerun

» Open selected maps/routes in 3DRerun instead

☑ Philippe benacek, CDL novalaise (GPX import) . Course H21E (route only) *

Other routes/maps from the same day within 1 km:

☑ Yann L, CDL Novalaise . Course Circuit A *

☑ SC, CDL Novalaise (GPX import) . Course A (route only) *

☑ MaximeG, LD Ayn (GPX import) . Course A (route only) *

☑ Matthieu B, CDL Novalaise (GPX import) . Course Course: A (route only) *

Choose all or none.

Find routes/maps in vicinity on other dates

Note! Click the small star behind a map to use this map as background map!
